

find your space

CS60 Range

Enjoy the freedom of your office space

With a Plantronics CS60 wireless headset you can make the most of the space around you – your desk is just the starting point.

Feel free to wave your hands, walk to the water dispenser, or search for that vital document while you carry on your phone-call. It's good for productivity to be able to write or type notes, or access data without bending your neck into an uncomfortable position whilst trying to support the telephone handset. And it's energising to stretch your arms or legs while you talk.

Plantronics headsets are simple to use and offer the best sound quality as well as absolute comfort and flexibility. Talk-time of up to nine hours ensures that you will have wireless freedom throughout your entire business day. Each headset has a choice of wearing styles – earloop, neckband or headband – for style and comfort.

If you work in an open-plan or bustling environment, the CS60, with a noise-cancelling microphone, is ideal. If you work in a quiet environment, such as a private office, the CS60 Micro is an even more discrete alternative. Both products are compatible with most corded desk-phones.

If you already have a digital cordless (DECT) phone or PBX system, then the C65 wireless headset can be linked to your existing system, to effectively become an extension phone. It is supplied with a headset holder that recharges the battery.

CS60
For general purpose use

CS60 Micro
For quiet environments

C65
For use with DECT systems

Key features

- Totally wireless solution – headset and base-station
- Choice of CS60 Micro for quiet environments, CS60 with noise-cancelling microphone or C65 (for linking to existing DECT phone system)
- 3 wearing styles (earloop, headband and optional neckband)
- 50-100 metres' range
- Up to 9 hours' talk time, and fast recharge
- Full volume control, and mute button
- Answering and ending calls is as simple as picking up and putting down a handset (requires HL-10 lifter for automatic handset control on some phones)
- Digitally encrypted for quality and security
- Two year warranty

Sound Innovation™ for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man..." From the man on the moon to the man on the street, Plantronics is an innovation leader dedicated to creating communication solutions for people who understand and appreciate the real freedom of space. From outer space to inner space, find your space.
