GETTING STARTED

1 INSERTING RECHARGEABLE BATTERY PACK INTO HANDSET

a) Insert the battery pack as indicated.

b) Slide the battery compartment cover shut.

2 PLANNING THE LOCATION

Place your Cordless DUALphone close enough to the telephone socket and main power sockets so that the cables will reach.

3 BASE STATION ASSEMBLY

Click socket and base together. Make sure the USB cable is placed as illustrated.

4 CONNECTING POWER AND TELEPHONE CORD

a) Connect the telephone cord to the base.

b) Connect the power supply cable to the power socket on the underside of the base.

- c) Now connect the power supply unit to the socket outlet.

5 CONNECTING TELEPHONE LINE TO WALL SOCKET

Connect the telephone cord to the national telephone plug as illustrated and connect it to the telephone wall socket.

NOTE: If the telephone cable provided in the box is too short, you can use a phone extension cord.

- 6 BELT CLIP**
Affix the belt clip as illustrated.

7 PLACING HANDSET IN BASE STATION TO CHARGE BATTERIES

When placed in the base the batteries will begin to charge immediately. Successful contact will illuminate the base charge light.

NOTE: For full charge, please always allow 24 hours.

- 8 CONNECTING TO PC**
Plug the USB cable into the USB port on your PC.

NOTE: Should you wish to use a USB extension cable the overall length must not exceed 5 metres (including the 2-metre cable already attached to the base).

9 SOFTWARE INSTALLATION

- Turn on your PC.
- Insert the Cordless DUALphone installation CD-ROM.
- If the installation program does not run automatically, click on the Start icon and select Run. Enter D:/Setup.exe (if D is not the CD-ROM drive, enter the appropriate letter)
- The installation wizard will now guide you through the process.
- The Cordless DUALphone is now fully installed and ready for use.

IMPORTANT NOTE: If you already have Skype™ installed on your PC please uninstall this as the Cordless DUALphone will only function with the Skype™ version included on the installation CD-ROM.
