

## Wireless IP telephony. Wideband sound.

The new Jabra GN9330 USB wireless headset will make all your PC-based IP telephony conversations sound better. High-definition, wideband IP audio ensures you hear – and are heard – with superb clarity.

- Revolutionary wideband sound quality for IP telephony
- Exceptional ease of setup and use
- Sleek and stylish, modern design
- Up to 100 meters of wireless freedom
- Up to 6 hours talk time without recharging

Talking has never sounded this good. The Jabra GN9330 USB is the first wireless office headset to offer true wideband audio. Its 6.8 kHz range is more than twice that of conventional telephony. Not only does our high-definition sound give you the feeling of a true “face-to-face” conversation, it also helps increase your productivity because you hear every detail the first time.

Noise-canceling microphone technology ensures your voice is always transmitted clearly, no matter where you are in the office. And digital security encryption ensures that the person you’re talking to is the only one listening.

Headsets have never been so easy to setup and use. The Jabra GN9330 USB headset connects quickly and effortlessly to your computer. Simple, intuitive headset controls make it easy to operate, and with a weight of only 26 grams, you’ll forget you are even wearing it.

With a range of up to 100 meters, you can take the call throughout the office environment. An optional second battery can be kept charged in the base, which can be hot-swapped to provide around-the-clock talk time. In short, the Jabra GN9330 allows you to escape the limitations set by your conventional telephone handset, providing hands-free convenience, all-day comfort, and superb sound clarity.

Feature	Benefit
Truly wireless headset	The wireless Jabra GN9330 gives you true hands-free mobility and increased efficiency. No cables involved.
Up to 100 meters office range	Get maximum value from the office space. Move hands-free and unhindered throughout the working day. You no longer need to be beside your computer to conduct business over IP.
Full 6 hour talk time	The Jabra GN9330 USB comes with a single 6-hour battery. A second, hot-swappable battery is available as an accessory.
Standby-time: • 43 hours with power on base • 120 hours without power on base	Your Jabra GN9330 USB is always standing by ready for action.
3 h battery recharging time	You know your headset will always be ready for the next day's business.
Battery status indicator	The four LEDs in the base keep you informed of your headset battery status at all times.
Noise-canceling microphone	Your voice is transmitted clearly even with background noise from the rest of the office.
200 Hz - 6.8 kHz wideband audio	The Jabra GN9330 USB's revolutionary new wide bandwidth sound makes PC-based IP telephony conversation exceptionally clear and characteristic, enhancing detail and quality.
Mute function	The mute button is easily accessed, stopping your voice from being transmitted when you have to consult with a colleague during a call.
Volume control	Intuitive controls facilitate easy volume correction.
2 wearing styles: • On-the-ear (ear hook) • Over-the-head (headband)	Choose the style that suits your personal preference.
Outstanding connectivity	The USB base enables effortless, quick connection to PC-based IP telephony (softphones); the plug 'n' play setup ensures trouble-free, intuitive, daily operation. For softphone compatibility, please check <a href="http://www.Jabra.com/gn9300usb">www.Jabra.com/gn9300usb</a>
PeakStop™ technology – max 118 dB SPL (RMS)	Protection against sudden, loud noises coming across the telephone network.
Digital security encryption	The Jabra GN9330 USB digitally encrypts your calls, giving you complete calling security and conversation confidentiality.
