DRS-5070 UHF FM MULTISTANDARD DESK TYPE TRANSCEIVER PMR446 8CH/LPD433 69CH

Desk type UHF FM 2-way radio for business and personal applications. Ideal as a base station unit in a paging system, connecting an unlimited number of PMR or LPD portable handheld radios or remote voice pagers. RF power set to full 4.0W for International Version or set to 0.5W (PMR) / 10mW (LPD) max for the European version, according to the R&TTE specifications. Multistandard circuit design, covering the PMR446 and LPD433 bands, in full compliance with the European R&TTE regulations. According to the selected band (PMR or LPD), the CPU automatically controls the various specifications (channel spacing, deviation, selectivity, RF power, etc.) required for the PMR and LPD bands. High efficiency antenna. Complete with a 230VAC Switching Type Power Supply/Charger, it can be used as a battery charger or as an external power supply, for battery free operation. Professional electronic and mechanical design.
