

Retro and Nostalgic Telephones

Product Catalogue

“Classic & Timeless styling brought right up to date by ProTelX”

Telephones have been around for well over a hundred years, and have undergone some amazing and beautiful design changes over this time!

Design

Using the exclusive GPO brand ProTelX have worked hard to recreate some of the most popular generation of telephones from the ornate, almost antique looking telephones to the art deco styling of the 1920's & 1930's, up to and including the solid, reliable classic GPO 1960's & 1970's range.

Manufacture

Using only the highest quality materials ProTelX have produced a range of products that recreate the styling of classic telephones that are fully compatible with all current networks.

Quality

Our goal is to produce a range of high quality, “built to last” reproduction products that accurately reflect the feeling of using both rotary and push button classic telephones.

Pricing

With such a diverse range of telephones ProTelX believe that products have been produced to suit every price point.
