

The Austin Taylor range of plastic backboxes are cost effective solutions for a wide range of surface mount applications.

Manufactured in tough ABS, they are much less brittle than traditional electrical backboxes and, so, less prone to damage during installation.

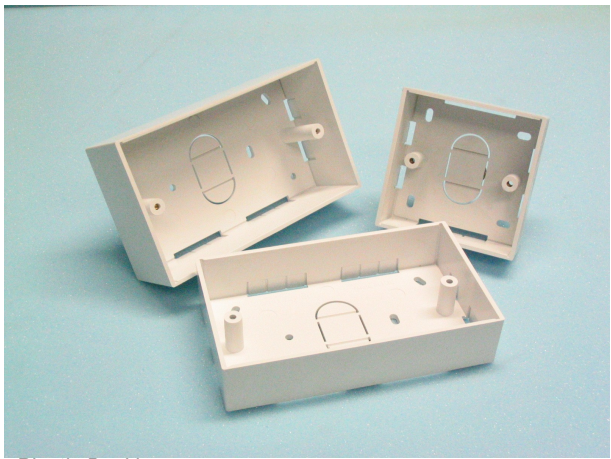

Single gang variants are designed for use with 86mm x 86mm faceplates and are available in three depths (21mm, 32mm and 45mm).

Double gang variants accept 146mm x 86mm faceplates and are available in 32mm, 37mm and 45mm deep variants.

The standard colour for all variants is bright white (BT 1P) to match Austin Taylor's wide range of data and telephony linejacks.

All variants feature a selection of mounting holes for ease of installation.

There are cable entry knockouts on all sides of the backbox as well as the base for maximum flexibility

Plastic Backboxes

Summary

Dimensions:	Height x Width
Single:	86 x 86mm
Double:	86 x 146mm
Depth Single	21mm (18mm internal)
	32mm (29mm internal)
	45mm (42mm internal)
Depth Double	32mm (29mm internal)
	37mm (34mm internal)
	45mm (42mm internal)
Material	Fire retardant ABS Bright White
