TURNING ON/OFF

The Jabra Handset 450 for Cisco will always be powered on when docked in the handset cradle, and the cradle is plugged into a USB port.

To turn off the Jabra Handset 450 for Cisco, press and hold (5 secs) the mute microphone button. Press the mute microphone button again, to turn back on. The Jabra Handset 450 for Cisco cannot be turned off if the cradle is plugged into a PC that is turned on.
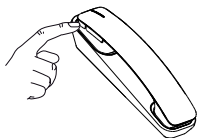

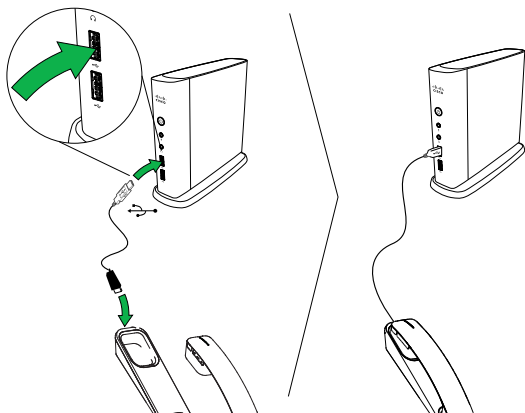

The Jabra Handset 450 for Cisco will automatically power off when out of range (20 m or 66 ft) of the handset cradle for 4 minutes or longer.

CONNECTING

The Jabra Handset 450 for Cisco is plug-and-play.

1. Connect the USB cable to the handset cradle, and then plug the USB cable into any available USB port on your PC.

2. Dock the Jabra Handset 450 for Cisco in the handset cradle.

The handset and the cradle are already paired. To pair a new handset with the cradle, simply dock the new handset in the cradle. Only one handset can be paired with the cradle at a time.

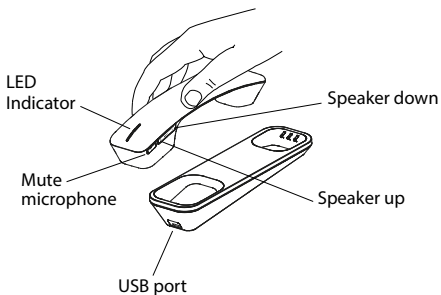

CHARGING

The Jabra Handset 450 for Cisco will charge when docked in the handset cradle. The handset cradle must be plugged into a USB port, and the PC must be turned on. The battery light will change to flashing yellow when there is less than one hour of battery remaining

1 hour of charging = 40% charge

3 hours or charging = 100% charge.
