Input and Output

A AUX-IN

B AUX-OUT

C DC-IN

Turntable Mode

1. Connect the small DC jack into the DC-IN port.
2. Connect the plug to a mains outlet.
3. Place the vinyl record on to your turntable.
4. Set the correct speed (rpm) of your vinyl record (33/45/78rpm)
5. Turn on the power of the turntable, you can see the red indicator of turntable mode is on.
6. Move the tone arm to the desired starting point on the record. The turntable starts to play. If auto-stop is on, the table will not spin until the arm is hovered over the record. If auto-stop is off, the turntable will spin continuously.
7. Adjust speaker volume to the preferred level.
8. At the end of the record, if auto-stop is selected on, the table will stop turning automatically. If auto-stop is off, the table will continue to spin.

AUX-IN Play Mode

1. Press the mode button until the red light next to AUX IN is illuminated.
2. Connect any external audio source (phone, iPad, MP3 player) to AUX-IN socket at back of the turntable
3. To connect the device to the turntable, you need 3.5mm jack audio cable.
4. Control the music from your external audio source

USB Play Mode

1. Switch the mode button to USB play mode, the red LED
   indicator is ON.
2. Plug the USB disk to the USB slot.
3. Press play button to start playing USB disk's music.
4. You can play own mp3 music or recorded vinyl music.

Vinyl Record Mode

1. Press the mode button until the red LED light next to
   Turntbale is illuminated.
2. Insert a blank USB stick into the slot
3. Place the desired vinyl onto the turntabled and begin playing.
4. Press the record button on the control panel, the red light
   next to record will begin to flash. Press the record button
   once to record the vinyl in one track, press the record button
   twice to split the tracks.

RCA Audio Out

An RCA cable is included with you GPO Attache, you will require
this cable to connect to extra speakers

Replace Stylus

The turntable's stylus needs to be replaced every 3-4 months after continuous playing. To buy replacement stylus, go to www.gporetro.com to order.

Troubleshooting

1. No power to device?
   Make sure your turntable is connected to power.
   Make sure that you have turned the power dial far
    enough around.
2. Noise from the speaker?
   Check your vinyl track is not damaged and your vinyl is
   not warped.
   Your stylus needle may require replacing.
3. How can I play back recorded files
   You can switch to USB mode to play back recorded files
   through built-in speakers.
4. Need more help?
   Visit our website for further support or contact us on
   0845 521 4095.

Product Care

DO NOT leave vinyl records on the turntable after use. Return the vinyl record to its original packaging and store. Return the tone arm to it's original place after use and secure with small needle arm lock. Replace the protective cap of the stylus cartridge after use. Close the turntable cover to avoid dust damage. Unplug the power cable and other cables after use.

Product Support

Looking for more help? visit www.gporetro.com or call 0845 521 4095. For your personal safety, do not attempt to open the device. No user serviceable parts inside and warranty void if device opened.
