Gigaset Maxwell Basic

The entry-level IP-phone for professional business communication

While designing the Maxwell Basic, the concept was with the user's business in the foreground. This inspired engineers to focus on the things that do matter for your business. This brings the ideal, functional and affordable business companion to the front. This makes the Maxwell Basic the IP phone for all businesses, supporting the employee to manage all communication aspects including their professional calls and phonebooks. Flexible use, hassle-free setup and exceptional wideband sound make it the perfectly suited for intuitive business communication.

Feature highlights:

- Outstanding user interface on LCD display
- 5-way navigation key for easy operation
- Up to 4 SIP accounts
- Multiple ringtones, selectable per line (internal, external, group, door)
- Exceptional HD voice and sound
- Professional zero-touch auto-provisioning setup
- Gigabit Ethernet (10/100/1000) with 2-port switch
- Integrated Power over Ethernet
- Internal directory with 100 entries
- Call waiting / Call active indication

Handsfree flexibility

Having your handsfree during a call is key in our business life today. Maxwell Basic fulfils this need in many ways. Maxwell Basic supports HD audio in handsfree and headset.

Loudspeaker audio

Having your hands free during a call is key in our business life today. Maxwell Basic fulfils this need in many ways. Both support loudspeaker audio in handsfree mode and handset.

Movable foot and wall mount

Every user needs to customise their phone in a different way. On every location there are situations with overhead lightning, shortage of space on the desk, longer distance to the phone. Therefore Maxwell Basic supports a movable foot. The foot has three different positions from vertical, to horizontal under a 120-140-degree angle. Without the foot, Maxwell Basic can be mounted on the wall.

Intuitive operation

The Maxwell Basic is equipped with a black and white display and navigation key to guide the user to the desired settings. The screen projects the information in high contrast, which helps you to read the screen in a wide angle behind the desk. You will clearly see who's calling.

BECAUSE IT'S YOUR BUSINESS.

Gigaset Maxwell Basic

The entry-level IP-phone for professional business communication

Technical data:

Maxwell Basic is equipped with

- Monographic Display, illuminated
- Resolution: 128 x 48 pixels
- Full keypad (0-9, *, #)

- DTMF (in-band), RTP payload (RFC4733), SIP-INFO
- Syslog
- IEEE 802.1Q VLAN tagging
- HTTP
- HTTPS
- TCP
- UDP
- RTP
- LDAP

Hardware

Dimensions of Main Device

- 188 mm (L) x 188.5 mm (W) x 36 mm (H)
- Weight approx.: 395 g

Dimensions of Handset

- 181 mm (L) x 45.6 mm (W) x 38.5 mm (H)
- Weight approx.: 108 g

Dimensions of Foot

- 187.5 mm (L) x 156.5 mm (W) x 24.5 mm (H)
- Weight approx.: 306 g

Warranty

- Two years

Environmental conditions

- Operating temp: 0° to +40° C
- Storage temp: -25° to +70° C
- Relative humidity: up to 93% non-condensating
