

T3000 Acoustic Hood

Environments

The slim-line T3000 Telephone Acoustic Hood is the ideal solution for limited space location, or where a larger full size hood is not required.

Manufacturing

The front is manufactured in the same way as the T2000 using a certified RTM system to BS476 Part 7 Class II surface spread of flame, but with a flat MDF back panel for a more compact depth.

T3000 Acoustic Hood
