- Delivering a vivid face-to-face video conference experience.
- Easier for everyone to be heard and involved in the meeting.

MVC800 | Large meeting room | 12-20+ people

Key benefits

The 12x optical camera delivers sharp, smooth and stable video at a significant distance. Thanks to its wide-angle horizontal field-of-view lens and adjustable camera angle, the MVC800 provides a broad view of large conference rooms.

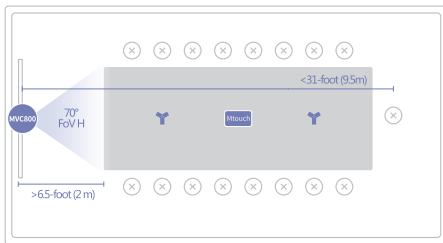

The ability to connect up to four wired beam-forming array microphones combined with 20 foot and 360-degree voice pickup technology.

The MVC800 offers instant wireless content sharing without clutter. The powerful screen share adapter MShare integrates HDMI and mini-DP input ports and eliminates the need for additional adapters for Mac or Surface products. Support built-in wireless of dedicated network. Just plug-and-play and start sharing content with a single click.

What's included

- Mini-PC: NUC
- Camera: UVC80
- Console(touch pad): MTouch
- Screen share adapter: MShare
- Wired microphone: VCM34 (or optional CPW90 wireless microphone)
- Speaker: Sound bar
- Others components and accessories TBD

MVC500 | Medium meeting room | 6 - 12 people

Key benefits

The 5x optical camera delivers sharp, smooth and stable video with a deep focus field, while the 83-degree wide-angle horizontal field-of-view lens and adjustable camera angle provide a broad view.

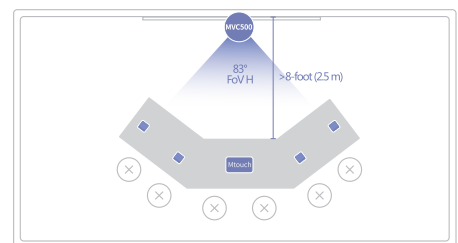

The ability to connect up to four wireless microphones allows users to flexibly cover conference rooms of up to 850 square foot (80 square meters) in size.

The MVC500 offers instant wireless content sharing without clutter. The powerful screen share adapter MShare integrates HDMI and mini-DP input ports and eliminates the need for additional adapters for Mac or Surface products. Support built-in wireless of dedicated network. Just plug-and-play and start sharing content with a single click.

What's included

- Mini-PC: NUC
- Camera: UVC50
- Console(touch pad): MTouch
- Screen share adapter: MShare
- Wireless microphone: CPW90 (or optional VCM34 wired microphone)
- Speaker: Sound bar
- Others components and accessories TBD

- Consistent and easy SFB/Teams experience with low learning cost.
- Simplify deployment, keep workspaces orderly and fit a wide range of needs.

VC200 | Huddle / Phone room | 2 - 6 people

Key benefits

The Ultra HD 4k camera delivers sharp, smooth and stable video at a short distance, while the 103-degree wide-angle horizontal field-of-view lens and adjustable camera angle provides a broad view of huddle rooms.

Six built-in beam-forming microphones deliver crystal-clear voice quality.

The all-in-one product design includes an integrated codec, camera, microphone and bracket. With touch-screen compatibility.

What's included

- VC200 codec
- Other components and accessories TBD

VP59 | Personal desk, open work space

Key benefits

The full HD phone camera is pluggable and can be extended 10 foot (three meters) by a USB cable and added on top of a monitor with a bracket to bring flexibility in the choice of camera location and video meeting view.

Connect to wireless microphones and cover an open work space.

The Android phone OS offers strong scalability. The all-in-one product design integrates a codec, camera and microphone. Setup and deployment is possible with a single line (internet cable or power cable).

What's included

- VP59 (phone)
- Wireless microphone: CPW90(Optional)
- Other components and accessories TBD

Why choose Yealink video device solutions

Channel experience

Help Microsoft/SIs to do more for less

Productivity enhancement

Help to increase team collaboration

Right and broad choices

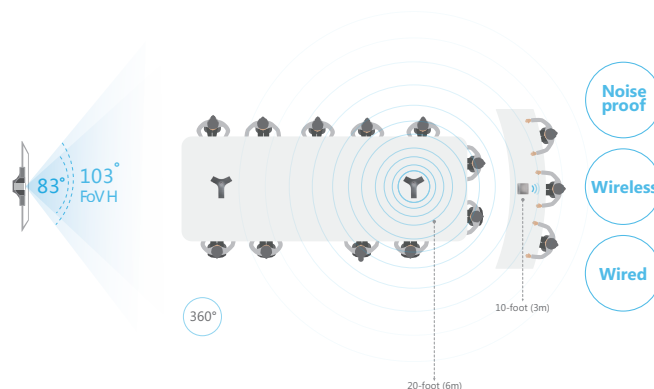

For multiple scenarios and fit any budget

- Up to four wired or wireless microphones and multiple video cameras options ensure coverage of conference whether with two or 20 participants.
- Ideal for both small and large rooms space utilization.
- With up to four devices from entry to premium level, flexible enough to fit any budget.

Superior audio and video performance

Consistent SFB/Teams experience

- Range of HD and wide-angle cameras ideal for any size conference room with two or 20 participants.
- For MVC series, connect up to four wired beamforming array microphones, featuring 20 foot(6m) 360-degree voice pickup technology. Optional wireless and wired microphone packages. Smart noise-proof technology.
- Embedded with the SFB/Teams application for a consistent user interface and workflow.

Global delivery, simplify deploy and manage

Easier for global customers to select and deploy

- Mini-PC and eight-inch Console(touch pad) are separated in Skype room systems (SRS).
- All-in-one product that offers plug-and-play ease. Optional wireless and wired microphone packages keep work space uncluttered.
- Core products developed by Yealink and working as an integrated total solution, permit optimal device compatibility and minimize breakdown risks.

Wireless and instant content sharing

With low learning cost

- The screen share adapter integrates HDMI and mini-DP input ports.
- Support built-in wireless or dedicated network.
- Just plug-and-play and start sharing content with a single click.

Mini-PC and Console(touch pad) are modular
