

LOGITECH® HD WEBCAM c270

Hi-Def Yourself.

Making HD video calling simple

Say it bigger. Say it better. High definition 720p video in widescreen for picture quality that's simply amazing. Video call, vblog, and share your videos with ease. Plus it works seamlessly with your favorite applications. The term 'webcam' doesn't quite do it justice.

FEATURE AT A GLANCE

Stay connected in widescreen HD 720p

- Fluid HD video calls on Skype™, Windows Live™ Messenger and Logitech Vid™ HD—the free, fast and fast easy way to see your loved ones face-to-face
- Easy to record, stream and upload breathtaking HD videos

X Rightlight ✓ Rightlight

Comes with great lighting and sound

- Automatic light correction for the best possible image—even if you make a video call in dim light
- Built-in noise-cancelling mic reduces background noise so you're clearly heard

Simple to snap and send photos

Take vibrant 3-megapixel snapshots with just one click.

Logitech Fluid Crystal Technology

Gives you smoother video motion, sharper video, richer colors and clearer sound.

Product description

100-word description

Logitech® HD Webcam C270. HD video calling that's simple. You'll enjoy an HD 720p video call on most major instant messaging applications and Logitech Vid™ HD-the free, fast and easy way to see your loved ones face to face. Send your family and friends a picture when you don't have time to talk or record a video. Take a 3MP photo (software enhanced) with just one click of a button. Your webcam will adjust to poor lighting conditions automatically to produce the best possible image-thanks to Logitech RightLight™ technology. And background noise doesn't have to spoil your video calls. Logitech RightSound™ technology delivers clear conversations-so you can be heard.

50-word description

Logitech® HD Webcam C270. HD video calling that's simple. You'll enjoy an HD 720p video call on most major instant messaging applications and Logitech Vid™ HD-the free, fast and easy way to see your loved ones face to face. You can take 3MP photos (software enhanced) with just one click. And your webcam has built-in software that adjusts to low light and background noise-so you can focus on what matters.
