BT600 ADAPTER

QUICK START GUIDE

plantronics[®]

Designed in Santa Cruz, California

PAIR

To pair your high-fidelity Bluetooth[®] USB adapter to your headset, do the following:

- 1 Insert the USB adapter into your laptop or computer and wait for your computer to recognize it.

- 2 Put your headset in pair mode (refer to your headset's user guide).

- 3 Put your USB adapter into pair mode by pressing and holding the recessed Pair button until the USB adapter flashes red and blue.

Pairing is successful when you hear "pairing successful" and the USB adapter LED is solid blue.

CONFIGURE

Windows

Your USB adapter comes ready to take calls. If you want to listen to music, you need to configure your USB adapter.

- 1 To configure your USB adapter to play music, go to Start menu > Control Panel > Sound > Playback tab. Select **Plantronics BT600**, set it as the Default Device and click OK.
- 2 To pause music when you place or receive calls, go to Start menu > Control Panel > Sound > Communications tab and select the desired parameter.

Mac

To configure the USB adapter, go to Apple menu > System Preferences > Sound. On both the Input and Output tabs, select **Plantronics BT600**.

North America

FCC regulatory information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
